Mum & I came out in 1950, must have been difficult for a wife to be left to wait for a year & then come out with children on a boat to an unknown country - a real movie maker!

All the Tabaczynski family worked at the SEC at one time or other. My brother, Peter Tabaczynski(Taba) still works there and lives in Yallourn North with his partner, Judy Renwick. My husband, Barry Dunn, went to Yallourn Tech as well in the early 60's.
